8th INTERNATIONAL CONFERENCE OF LASER,
AESTHETIC MEDICINE AND SURGERY (ICLAS)

SYNERGY BEYOND LAYERS

Dear esteemed members,

This is Hyoung Moon Kim, M.D., PhD, President of ICLAS.

As we begin 2026, I would like to extend my sincere wishes for a healthy and fulfilling year to all of our members.

ICLAS has continued to grow through the steady support and participation of colleagues around the world. I am truly grateful for the trust you have placed in us, and for the role each of you has played in shaping this community.

This year, under the theme “Synergy Beyond Layers,” we aim to look beyond individual techniques or disciplines and instead focus on how different approaches can come together in a more integrated and meaningful way. In clinical practice, true progress often comes not from a single advancement, but from how we connect knowledge across layers—technology, anatomy, and experience.

With this in mind, we remain focused on strengthening the academic foundation of ICLAS. Our priority is to provide programs that are relevant, well-structured, and directly applicable to daily practice. We are preparing sessions that reflect both current advances and the practical realities clinicians face.

At the same time, the value of ICLAS lies not only in the content we share, but also in the exchange of perspectives. Bringing together physicians from different backgrounds allows for deeper understanding, and we will continue to foster an environment where such dialogue can take place naturally.

Throughout the year, ICLAS will continue its efforts to connect a broader international audience through its academic activities. As part of this ongoing journey, we look forward to gathering again for our annual meeting in Seoul.

On behalf of the ICLAS Board of Directors, I sincerely thank you for your continued support, and I wish you all a successful year ahead.

A handwritten signature in white ink, appearing to read 'Hyoung Moon Kim'.

Sincerely,

Hyoung Moon Kim, M.D., PhD

President
